

TECHNICAL DATA

Dimensions (diameter x depth): 200 x 60 cm

Weight: 2,2 kg

Technical data are subject to change. The listed values are guide values and should not be understood as binding in a legal sense. The values can differ due to tolerances in used components.

OCTABOX 200

Code no. 4150200

- // Lightweight but extremely durable specialty fabric of the outer shell increases resilience and lifespan of the softbox
- // Recessed front diffuser to minimize light scatter, and with Velcro areas for using accessories like honeycombs
- // All seams and hems are of neat and heavy duty quality - ideally suited to frequent set up and dismantling
- // The standard aluminum connector ring for soft-, strip-, and octaboxes increases flexibility
- // Octaboxes and grand versions are equipped with removable backings for easier set-up
- // The provided nylon transport bags have content labels to ease the matching of parts
- // Changeable front and inside diffusers allow you to adjust light characteristics and are quickly exchanged in case of staining or damage
- // Even light distribution and high efficiency due to optimum design
- // Thanks to high-quality materials, all boxes offer excellent color rendering that remains stable for years to come
- // Suitable for Hensel units of the EH system and the MH system, an optional speedring is needed: code no. 4000300 (EH) or code no. 4000800 (MH)
